Team Name: sdmay24-04

Team Members: Mike Gradle, Ricky Smith, Gabe Owen, Kristen Hawken, Jonah Besselievre, Rose Druce-Hoffman

Report Period: Oct 9 -> Oct 22

Summary of Progress in this Period

During this period, we have created more screens and are creating different sprites that will be used throughout the app. We also met with the client again to give us more information. From the meeting, we learned that there are other organizations that want to use this app and we will need to create a system that will allow them to integrate with other organizations. Also, we setup a time to do our final presentation for the semester.

Pending Issues

Overall, we do not have many issues at this time. We still need to talk to ETG to get a server started to host our website for the time being. Currently, any testing with React is being done through localhost:3000.

Plans for Upcoming Reporting Period

For the next reporting period, we would like to have information about getting our website server setup. We don't necessarily need it now, but come second semester, it would be nice to have it up and working. Hopefully, some of our screens will be implemented in React. Also, if there are any documents that need completing, we will have those done.
